

## PANORAMIC PORCELAIN SURFACES™ – ANTI-SLIP APPLICATION

### EXTERIOR FLOOR APPLICATIONS AND WET SURFACES

Panoramic Porcelain Surfaces™ products (Matte and Polished finishes) have been successfully tested and when combined with approved Anti – Slip products will surpass minimum DCOF requirement  $\geq 0.60$  for exterior non-covered areas and wet surfaces.

#### Applications:

- Wet Interior and Exterior Floors
- Shower Floors (Residential and Commercial)
- Exterior Floor Applications
- Ramps & Inclines (Meets DCOF Requirement of  $\geq 0.65$ )
- Pool Linings
- Interior Floor Areas (Residential and Commercial where higher 0.42 DCOF would be necessary)

#### Application notes:

- Please inquire further about approved products with your local Daltile agent.
- Suitable for exterior applications in freezing and non-freezing climates, when proper installation methods are followed.
- Product must be used following all manufacturer recommendations.
- In order to achieve desired DCOF rating more than one application might be needed.
- Anti-slip product application method and warranty will be provided by product manufacturer.
