NOTES

Take careful note of the following instructions specific to brushed aluminum mosaics:

- Brushed aluminum mosaics will maintain their rich appearance with simple routine care.
- To clean the aluminum mosaic, please use a damp sponge together with warm soapy water or alcohol. Do NOT use ACID-based products or harsh detergents.

Since there are variations in all natural products, tile and trim supplied for your particular installation may not match these samples. Final color selection should be made from actual tiles and trim and not from tile samples or color reproductions.
