MY CITY™
COLORBODY™ PORCELAIN

daltille
IMAGINE WHAT’S POSSIBLE™
Urban Sophistication

My City™ by Daltile® expresses metropolitan energy and mobility with patterns inspired by the transit systems of three of the most dynamic cities in the world: New York, London and Shanghai. Developed in collaboration with Gensler, serving as product design consultant, this cutting edge porcelain tile collection offers a concrete look in cool and warm neutrals with gloss, metallic, or matte finish linework. Also available are unpatterned Flat™ tiles to complement your look and expand your design opportunities.

NEW YORK
The New York series features grid-like lines softened with fluid curves – a striking visual metaphor for the Big Apple’s verve and vitality. Offered in dark and light tones that convey the city’s many contrasts.

LONDON
The London series features the cool grays of the city’s famous fog, with angular linework inspired by its equally renowned underground transit system.

SHANGHAI
The Shanghai series offers a unique pattern of linear angles, influenced by its namesake’s intercity Metro, and embodied in a series of rich, warm neutrals.

Cover photo features My City™ Madison Slate on the floor and wall. Above photo features My City™ Paramount Brick on the floor.

### NOTES

Since there are variations in all fired ceramic and natural products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.1 standards.

Not for use on ramps. Water, oil, grease, improper drainage and certain footwear can create slippery conditions. Floor applications expected to be exposed to these conditions require extra caution in product selection.

Random visuals enhance the natural beauty of this product. To achieve optimal results, all tile should be selected from multiple cartons and shading and graphic arrangement planned prior to installation.

Special consideration needs to be given when installing tiles greater than 15 inches. Please refer to daltile.com/LargeTiles for more information.

Special care should be taken when grouting with dark pigmented colors. A grout release is recommended to prevent finely powdered pigments from lodging in the pores of the surface. Use of a latex modified thin-set is recommended for installation.

For additional information refer to “Factors to Consider” at: daltile.com/Factors.
