APPLICATIONS

Target DCOF wet Suitable

Dry & Level – Interior Floor N/A ✓
Wet & Level – Interior Floor ≥ 0.42 ✓
Shower Floors (Residential or Light Commercial) ≥ 0.42
Exterior Floor Applications (including pool deck & other wet areas with minimal footwear) ≥ 0.60
Ramps & Inclines ≥ 0.65
Walls/Backsplashes N/A
Countertops N/A
Pool Linings N/A

A DCOF value of ≥0.42 is the standard for tiles specified for level interior spaces expected to be walked upon when wet, as stated in ANSI A137.1-A326.3. For more information about DCOF and the DCOF AcuTest®, visit daltile.com/DCOF.

INSTALLATION

Pattern Recommendation* Shade Variation

Floor 6 x 24: 33% Offset / 50% Offset

Floor 12 x 24: 33% Offset / 50% Offset

* Straight grid installation is not approved for RevoTile.

RevoTile features greater breaking strength and impact resistance than conventional porcelain tile.

For additional information on test results, visit us at: daltile.com/information/TestResults.

NOTES

Since there are variations in all fired ceramic and natural products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.1 standards.

Not for use on ramps. Water, oil, grease, improper drainage and certain footwear can create slippery conditions. Floor applications expected to be exposed to these conditions require extra caution in product selection.

For additional information refer to "Factors to Consider" at: daltile.com/Factors.

Special consideration needs to be given when installing tiles greater than 15 inches. Please refer to daltile.com/LargeTiles for more information.

For more information, visit daltile.com.

MADE IN THE U.S.A.*

All or select items within this series meet the requirements for these qualifications. For more information, visit daltile.com.

* Made in the USA with imported material.
