### NOTES

- Special consideration must be given when installing tiles greater than 15 inches. Please refer to daltile.com/LargeTiles for more information.
- Use of a latex modified thin-set is recommended for installation.
- Since there are variations in all fired ceramic products, tile and trim supplied for your particular installation may not match these samples. Final color selection should be made from actual tiles and trim and not from tile samples or color reproductions. Manufactured in accordance with ANSI A137.1-2012 standards.
- Water, oil, grease, etc. create slippery conditions. Floor applications with exposure to these conditions require extra caution in product selection. Not for use on ramps.
- For additional information refer to “Factors to Consider” at daltile.com/Factors.
